For the first time in the world, a Bachelor of Arts in Technical Analysis

For the first time in the world, Trend University has the pleasure to introduce its Bachelor of Arts degree in Technical analysis.

The program was created with the mission to produce a unique generation of international technical analysis Asset Managers.

Excerpt from the President's message:

"If we want to produce another Charles Dow, Ralph Acampora or John Murphy, to mention a few, then we must make technical analysis a little more academic. Trend University was established with this idea in mind." – Amr H. Dabbous, President, Trend University.

Background

On the 29th of December 2006, Trend University officially became the first specialized technical analysis university in the world, with a highly rated curriculum focused on Arab markets, new technical analysis tools and asset management techniques by the same person who presented the Arab world with the best technical analysts in its short history.

Our Mission

No matter where you live, no matter what language you speak and regardless of your level of experience, we are committed to help you become a professional technical analyst, with the ability to either manage your own assets, or assist asset managers in their job.

Special Offer:

Take advantage of this one-time offer and receive all university study books free of charge. Written for the first time by Amr H. Dabbous, all books contain extensive examples from leading Arab markets (Egypt, Saudi Arabia & the UAE) and a wide range of new technical analysis tools intended to revolutionize the technical analysis approach. In addition, you will get a lifetime subscription to all university newsletters and a free registration to the university's online community and electronic assistance.

Instructor's Biography:

Amr H. Dabbous

*Amr H. Dabbous is considered the pioneer of technical analysis in Egypt and the Middle East. Over the course of many years, Mr. Dabbous has managed to build a name for himself which has become synonymous with technical analysis. He is one of the very rare analysts in the Middle East who have covered and traded most financial world markets. In December 2006, Mr. Dabbous established **Trend University**, the first technical analysis university in the world, with the mission to produce a new generation of technical analysis asset managers. Furthermore, Mr. Dabbous is the first Arab to register a copyright for a technical analysis tool. Actually, he protected more than one tool. These include his famous "**Trend Monitor**" and all his "**Momentum Wavers**" equity indices construction and application tools.*

*Prior to this, Mr. Dabbous was founder and managing director of **Momentum Wavers, Ltd.** the Middle East's first and only specialized technical analysis firm. As a result of his leading role in the field, Mr. Dabbous was granted the approval of the International Federation of Technical Analysts (**IFTA**) to establish the Egyptian Society of Technical Analysts (**ESTA**), a non-profit organization set up to promote technical analysis in Egypt.*

*Prior to founding **Momentum Wavers, Ltd.** Mr. Dabbous was Head of Trading at **EFG-Hermes** Asset Management. He also conducted the first Technical Analysis course in the Region as part of the **EFG-Hermes** investment course in 1997. Before that, Mr. Dabbous worked at the Capital Markets department of **Arab International Bank** where he covered and traded U.S equities and money markets instruments. Later on, he joined the bank's dealing room where he became a Foreign Exchange and Currency Options Dealer. He was in charge of managing portfolios in the foreign exchange and currency options markets for the bank as well as its clients.*

*Mr. Dabbous is also an active technical analysis instructor. He has organized technical analysis courses for the **American University in Cairo's** Institute of Banking and Finance program, as well as for several financial institutions in Egypt.*
